

Tap into our knowledge

27 September 2017

Legal and regulatory developments relevant to higher education institutions occur often and cut across many areas of the law. For that reason, we are excited to make you aware of another way for you to learn about new legal and regulatory matters that are relevant to your institution and your specific areas of practice: [Hogan Lovells Focus on Regulation](#).

The Focus on Regulation blog compiles short summaries and analysis of breaking news, precedent-setting cases, and proposed and final regulations. We post regularly about [education developments](#) that are specifically relevant to higher education institutions and K-12 schools. Hogan Lovells lawyers also post about topics such as [immigration](#); [government grants and contracts](#); [international trade & investment](#); [tax](#); [technology, media & telecommunications](#); and [the environment](#), among others, that also may be relevant to your practice.

So that you don't miss out on important updates, we encourage you to subscribe to email updates or RSS feeds that match your interests:

- Subscribe to receive email updates related to education and any other topic that interests you [here](#); or
- Subscribe to the education-related RSS feed [here](#).

We also invite you to follow Hogan Lovells Education ([@HoganLovellsEDU](#)) on Twitter.
