

COVID-19 resources for life sciences and health care companies

Last updated on 29 October 2021

Helping you make the world healthier

Despite the professional and personal challenges that each of us is faced with due to the COVID-19 pandemic, the life sciences and health care industry world-wide is rallying to find solutions that enable us to respond to, treat, and prevent the spread of COVID-19, and as advisors we are proud to have been called upon to support you in these efforts.

We recognize the extreme challenges of moving your business and efforts forward through uncertainty in local, regional, and international efforts to address these critical public health needs. In the following pages, you will find a compilation of the guidance, client alerts, and thought leadership that our Global Life Sciences and Health Care team has published to date to address the COVID-19 crisis, along with key contacts for each subject matter.

If you have questions or need support, please do not hesitate to get in touch with the key contacts listed in this guide or the Hogan Lovells lawyers with whom you regularly work.

Clinical trials

We are starting to see clients consider and address a number of clinical trial-related issues and concerns caused by COVID-19 and the containment efforts including issues with travel restrictions and reimbursement, clinical trial vendors, study conduct, and supply chains. We have also assisted many of our pharmaceutical, biotechnology, and medical device clients with the development and initiation of clinical studies and expanded access programs for therapeutic products and medical devices intended to treat COVID-19 infections.

U.S. regulatory

Given the urgency of the outbreak, we believe Congress and the administration will work together to take additional action to bolster the fight against coronavirus and strengthen confidence in the U.S. economy. Companies and organizations can help the government fight the coronavirus but may need assistance presenting their ideas to policymakers, responding to government orders and requests for proposals, and in connecting with the government officials. That's where we can help.

Global supply chain

The COVID-19 pandemic has disrupted supply chains, created delays and disruption, and caused businesses worldwide to consider invoking force majeure. The magnitude and complexity of supply chain problems created in the wake of COVID-19 are unprecedented in the modern era. To navigate this crisis, businesses need to assess risk, consider pragmatic and tailored solutions, and act promptly to mitigate damage and safeguard vital business functions.

Virtual health

As the world responds to the COVID-19 pandemic, physicians and patients are increasingly turning to virtual health solutions, including telehealth and remote monitoring, as a central facet of health care delivery. Providers are reaching across state and national borders using technology to provide medical services via email, interactive video, and apps that facilitate diagnosis, consultation, treatment, monitoring, and even medical research.

How we can help

The COVID-19 pandemic requires quick-turn, out-of-the-box approaches to mitigating a global health crisis that changes daily. We are helping our clients navigate the minefield of regulations around the world and work with the relevant government agencies to develop creative approaches that respond to the immediate needs and potentially alter the long-term implications of this disease.

Whether you are managing disruptions in your supply chain or clinical trials, are looking to increase access to digital tools, or are exploring pathways to expedite regulatory approvals for critical medical products such as tests, therapies, vaccines, and personal protective wear, our team is at the ready to help.

Led by our world-renowned Global Regulatory practice, we have a dedicated team of lawyers and regulatory specialists who have long-standing relationships and experience with key U.S. and EU regulatory agencies, as well as in-depth knowledge of health care policies and legislation, privacy and cybersecurity requirements and threats, and new developments in international trade and government contracts.

Our Global Regulatory team is supported by lawyers from our Corporate, Litigation, and Employment practices who are advising on contracting issues, crisis leadership, liability and risk management, and employment considerations.

A selection of our experience

- Advocating to FDA on behalf of multiple clients regarding regulatory issues related to recent FDA guidance on alcohol-based hand sanitizers during the COVID-19 emergency.
- Assisting multiple clients with regards to Emergency Use Authorization (EUA) submissions for COVID-19 diagnostic tests, treatments, and surgical masks.
- Assisting manufacturers regarding the application of PREP Act liability immunity in connection with large scale manufacture and supply of medical devices and drugs needed for the COVID-19 response.
- Advising manufacturers in connection with orders of medical devices and drugs by FEMA and HHS for the Strategic National Stockpile, including rated orders issued under the Defense Production Act.
- Advising clients on the impact of COVID-19 on clinical trials, such as patient travel to clinical sites and potential force majeure claims from clinical trial vendors.
- Advising clients on the use of telehealth and other digital health applications to monitor COVID-19 patients in their homes.
- Advising clients on drug shortage and supply chain disruption due to export bans of certain medicinal products.
- Advising clients in drafting COVID-19 policies, including employee communications, privacy requirements, travel policies, etc.
- Advising clients on the regulatory pathway and expanded coverage for home infusions for immunocompromised patients.
- Advising non-traditional life sciences and device companies on the requirements and logistics of producing critical need supplies.
- Assisting new-market entrants on the procurement of supplies from overseas and helping them navigate the FDA and CBP requirements to import these products.
- Advised **Vayu Global Health Innovations** in obtaining an EUA from FDA that allowed its bubble CPAP (bCPAP) device to be immediately distributed to hospitals to help alleviate the ventilator shortage associated with COVID-19.
- Teamed up with regulatory consultant Wanda Henry Co. to advise **Sansure Biotech, Inc.** in its FDA EUA for a molecular diagnostic test kit for COVID-19.

- Advising **Ford Motor Company** in its collaboration with GE Healthcare to help reinforce the Strategic National Stockpile and to support the treatment of coronavirus patients.
- Advised the **Kraft Group/New England Patriots** to obtain the necessary government approvals to pick up 1.3 million N95 masks from Shenzhen, China, and deliver them to the Commonwealth of Massachusetts.
- Advised **Valneva** on its partnership with the UK Government for its inactivated adjuvanted COVID-19 vaccine, VLA2001.
- Advised **Lucira Health** on obtaining the first FDA Emergency Use Authorization for an at-home COVID-19 testing kit.
