

Insurance Litigation

Clients hire our global insurance litigation team to resolve disputes arising from complex, high-exposure risks — from cyberattacks, governmental investigations, and shareholder lawsuits to product recalls, environmental contamination, and hurricanes.

Based in more than 30 litigation hot-spots around the world, our lawyers deliver precedent-setting wins by combining courtroom know-how and in-depth insurance industry knowledge.

Cross-border collaboration is a key to our success for clients. When risks underwritten in London emerge in Houston, and reinsurance treaties issued in Tokyo cover losses in Dusseldorf, our multijurisdictional teams bridge the international divide.

Representative experience

Using a mediation process, the London team helped our client to resolve proceedings against its former brokers arising out of a complex multiyear reinsurance program.

Our litigators in London and Madrid successfully combined to solve a complex subrogation problem that involved conflicting judgments and proceedings in three countries.

Recognized by *Who's Who Legal 2015* as one of a few elite firms with a global network of leading insurance lawyers.

Ranked Tier 1 nationally, in Washington, D.C., and New York in Insurance by *U.S. News & World Report* in 2015.
