

Insurance Products and Services

We can help with the structuring, design, and documentation of all types of (re)insurance arrangements, including policy wordings and outsourcing.

Whether you are looking for help on complex commercial arrangements like captives, warranty and indemnity insurance, credit insurance, and structured reinsurance, or retail insurance arrangements such as packaged bank accounts and travel policies, we are here to help. And when arrangements span international borders, with insurance lawyers in all major jurisdictions in Europe, the U.S., Latin America, and Asia, we make sure that we design products that comply with all international regulatory regimes.

Representative experience

Advised a U.S.-based and a Barbados-based reinsurer on a structured reinsurance of the captive of one of the Big Four accountancy firms.

Advised a Barbados-based reinsurer on its reinsurance arrangements covering the global operations of an international critical illness insurer.

Advised a large UK-based insurer on its distribution with the UK's largest building society.

Advised a large European-based reinsurer on a number of value-in-force reinsurances of various European life insurance companies.
