Nigeria joins race to meet booming demand for LNG with new plant

Nigeria LNG is taking its first step to increase liquefied natural gas output by more than a third,

after years contemplating an expansion to keep up with the world's major producers.

The producer has signed front-end engineering and design contracts for a seventh facility with joint ventures that include Saipem, TechnipFMC and Chiyoda.

Train 7 would cost US\$6.5 billion to build, with another US\$5 billion to be spent on upstream gas supply.
