Biography

In a large-scale investigation or inquiry, clients need to identify core issues and develop strategies to efficiently resolve them. Lillian Hardy has managed wide-ranging investigations for clients on five continents with these goals in mind. She also works with companies to develop and improve their compliance programs.

Lillian focuses her practice on Foreign Corrupt Practices Act (FCPA) investigations, economic sanctions, cybersecurity and data privacy-related investigations, consumer financial protection enforcement actions, and other government investigations.

Clients in the life sciences industry turn to Lillian for representation in investigations and whistleblower litigation involving the Anti-Kickback Statute, the False Claims Act, and the Food, Drug, and Cosmetic Act. Lillian's data privacy and cybersecurity know-how comes from managing incident response, remediation, fact investigation, and notification and reporting obligations in breach incidents for Fortune 500 companies.

Lillian's business-minded and practical client service approach was honed during her year-long in-house secondment at a Fortune 500 multinational conglomerate, where she focused on compliance.
