

FSMA Update: FDA Publishes List of Required Foreign Supplier Verification Program Records

09 October 2019

A Seat at the Table

The U.S. Food and Drug Administration (FDA) recently published a list of the records that importers are required to develop and maintain under the Foreign Supplier Verification Program (FSVP) regulation. The [13 page document](#) contains detailed checklists of the required records, though not every record on the list will be applicable to every importer. These records need to be made available to FDA during an FSVP inspection.
