

Fleur G. Oké

Associate

Washington, D.C.

Biography

Fleur Oké is business-focused. She understands that clients want innovative solutions to complex regulatory problems. Leveraging a client-first approach, she employs sophisticated strategies to help multinational clients navigate the evolving consumer and health privacy regulatory terrain. By analyzing data security, compliance, and third-party risks, she offers institutional knowledge that immediately adds value to a client's bottom line.

In a global society connected by the nearest smartphone, there is a growing need for lawyers to recognize the intersectionality of privacy law, technology, and transactions for its clients. To serve clients' interests, Fleur regularly advises on privacy and data security risks in mergers and acquisitions and governance matters, specifically in the health care and technology industries. New and existing companies benefit from her knowledge base when seeking guidance on how to mitigate risks and develop policies to meet the demands of a changing regulatory environment. She also assists in evaluating the effectiveness of data security and technology programs as well as providing guidance on security incident response efforts.

Prior to joining Hogan Lovells, Fleur managed the operations of a private cardiology practice where she was able to understand the various health privacy
