

Real Estate Development

Whether you are a developer, financier, fund, occupier, public sector body, or any other major landowner, we focus on all of the issues surrounding development and regeneration.

From planning to procurement, delivery, and ultimate letting and disposal, we will work as part of your real estate development team throughout the lifecycle of a project, which can last more than 30 years.

We deal with all site assembly issues through acquisition, options, and the use of compulsory purchase powers.

Our real estate team is fully integrated and includes lawyers focused on planning, environment, construction, dispute resolution, finance, and tax.
