

IOSCO to develop support framework on ICOs and FinTech network

11 May 2018

The International Organization of Securities Commissions (IOSCO) has decided to develop a support framework to help its members as they consider how to address issues linked to initial coin offerings.

IOSCO members met at the organisation's 43rd Annual Conference in Budapest this week to discuss issues facing securities market regulators and supervisors nowadays.

One of the items on the agenda was ICOs.
