

Brexit

The UK's vote to leave the EU has profound implications for businesses across the world.

When unpredictable political forces are at play, you need advisors who can help you understand, predict, and respond decisively.

Our dedicated public law and policy team forms a core part of our Brexit Taskforce. We understand the constitutional frameworks of the UK and the EU. But we are also highly commercial lawyers who work every day with clients to achieve their business objectives through policy engagement and, where necessary, litigation. We deliver solutions that are commercially, legally, and politically credible.

Since 2014, we have been working with clients across a range of industry sectors to manage the risks and capitalize on the opportunities posed by Brexit, by delivering sound legal analysis, global perspective, and active engagement with policy makers.

Representative experience

Advising a client in the aviation sector on the implications of Brexit for UK-EU aviation regulation and assisting it to engage policymakers.

Advising a trade association on the trade and regulatory impact of Brexit in the life sciences sector.

Advising clients in the automotive sector on the possible future UK environment for international trade and customs
