

Construction, Engineering, and Projects

Our global team has an unrivalled understanding of the construction and engineering industry. Our project-focused contract risk management analysis, state-of-the-art dispute resolution and litigation skills, and deep industry knowledge will bring your most intricate projects to completion.

We work with owners, developers, contractors, consultants, engineers, project managers, and government entities on high-value infrastructure projects across all key sectors, guiding them through different procurement techniques and assisting with the most complex contract tenders, negotiations, and drafting.

We are keen to help you avoid disputes, a commitment shown by our early case assessment service, Prism, which won the 2016 British Legal Award for Legal Services Innovation.

Representative experience

A top-tier firm in the *Chambers & Partners Global* legal directory.

We innovate to reduce costs – our early case assessment service, Prism, won the 2016 British Legal Award for Legal Services Innovation.

Industries

Diversified Industrials
