

High Yield

As the international high yield market grows, it becomes an increasingly important source of financing and growth.

Structures have become more complex and standard covenant packages are evolving. You need lawyers who understand your institution and help you meet your goals. We can deliver.

We advise on both the bank and the bond financing. On both sides of the Atlantic. From sponsor, to corporate. From traditional to emerging markets.

We are involved at the initial capital raising, when the deal first comes to market. And when refinancing or restructuring is needed.
