

Pension Issues Connected With Business Critical Reorganizations

You tread carefully when restructuring your business divisions and operations, or when moving subsidiaries to different parts of the corporate group. But are you aware of how it can impact your pension scheme?

The lawyers at Hogan Lovells can guide you on the impact of pension schemes on business-critical reorganizations. Whether you are the sponsoring employer of a defined benefit pension scheme or the trustee, you need to understand the effect on the employer covenant and whether a Section 75 debt on the employer may be triggered.

We help employers and trustees constructively collaborate to make sure that any issues are dealt with properly. Don't let mismanaged pensions issues curb your goals.
