

What are the potential benefits of blockchain?

08 December 2017

Hogan Lovells Engage

According to a World Economic Forum report, *The Future of Financial Infrastructure*, published in August 2016, distributed ledger technology (DLT) is one of many transformative new technologies that will shape future financial services infrastructure.

What are the key value drivers of DLT and why has the interest in DLT in the insurance sector grown rapidly in the past few years?
