

## James Doyle

Partner

London

### Biography

James Doyle leads the global Corporate & Finance practice group. As a debt capital markets partner, James provides a wide spectrum of advice, primarily focusing on derivatives and structured finance. This includes assisting clients with sophisticated financial products, including securitised derivatives, repackagings, funding structures, and associated regulatory advice. James works with financial institutions, government agencies, corporates, asset managers, and funds across the world.

### Representative experience

Advising investment banks and asset managers on the establishment of repackaging vehicles and related repackaging transactions linked a variety of different assets.

Advising a number of leading investments banks in relation to on-balance sheet securitised derivatives platforms.

Advising on structured OTC derivatives transactions relating to a wide range of different asset classes, including equity, commodities, credit and insurance.

Advising a number of financial institutions on the acquisition or disposal of portfolios of derivatives as part of strategic asset sales.

Advising Export Credit Agencies in relation to guarantees provided as part of structured finance arrangements.
