

Accounting and Auditing

Accounting and auditing standards are complex and continually evolving. Understanding the role of your auditors when a financial reporting issue arises is critical in today's environment.

The lawyers at Hogan Lovells can guide you. We bring knowledge and confidence, having represented clients in financial restatements and related investigations by the U.S. Department of Justice, Securities and Exchange Commission, state regulators, and the Financial Industry Regulatory Authority. We have defended both companies and accounting firms in litigation and investigations. We understand the dynamics between accounting firms and regulators, including the Public Company Accounting Oversight Board.

As a public company, accounting and auditing is your priority. Let us help you manage any accounting or auditing situation that may arise efficiently.
