

## Katy Rankin

Associate

Denver

### Biography

Katy Rankin combines legal skills and a broad background in information technology to deliver results-driven solutions for her clients. Her practice focuses on assisting clients with their complex intellectual property litigation, including patent and trade secret disputes.

She has experience counseling clients in a wide range of areas, including consumer electronics and software, telecommunications, network and software security and mobile devices. Katy represents clients before federal district courts and various state courts.

Prior to joining Hogan Lovells, Katy worked for a large IT consulting company. She collaborated with data storage and virtualization engineers, network security specialists, and wireless, Voice-over-IP, and physical network technicians to deliver enterprise network solutions to clients in the health care, government contracting, and energy and resources sectors. As a network engineer with certifications in networking and information security, she focused on creating secure network infrastructures for clients.

While in law school, Katy served as president of the Intellectual Property Law Society. She worked as a staff editor for *University of Denver Water Law Review*. She also coached a high school mock trial team and
