

Federal Health Procurement for Drugs, Biologics, and Medical Devices

We have decades of experience representing biotechnology, medical device, and pharmaceutical companies in connection with federal procurements. We advise on the full life cycle of government contracts, including preparing an offer, negotiations, administration, modifications, and terminations. We routinely assist clients with audits and internal reviews relating to federal contract pricing, M&A diligence, Veterans Health Care Act of 1992 compliance, country-of-origin restrictions, and the VA and DoD Tricare health programs. We also advise on voluntary disclosures and settlements with the government.

Our practical and business-oriented approach allows our clients to resolve disputes with the government efficiently and effectively

Representative experience
