

Carolina Revenga

Counsel
Madrid

Biography

With extensive experience in product liability and tort litigation, Carolina Revenga has advised and defended clients in all ranges of defective product-related claims as diverse as electronic devices, food, beverages, medical devices and medicines. Particularly involved in the life sciences industry sector, Carolina manages massive tort litigation related to medical devices and medicinal products and helps key industry sector clients to solve all types of critical challenges.

Carolina also has deep knowledge of the insurance and reinsurance sector, advising clients on coverage issues, risks assessment and insurance litigation. Her practice covers industrial risks (P&C, transport, bond insurance and product liability etc.) and professional liability claims, D&O claims and E&O; she has defended and advised insurance and reinsurance companies on coverage disputes, reinsurance conflicts and class actions coordination.

Representative experience
