

Anti-dumping and Countervailing Duty Investigations

Global trade investigations are complex, with high stakes for the companies targeted. Anti-dumping and countervailing duties significantly impact market access for many companies.

We help importers, producers, and exporters defend their interests in global trade investigations and appeals.

We have extensive experience with the U.S. Department of Commerce, the International Trade Commission (ITC), European Commission, MOFCOM, and dozens of other agencies that govern this area. We're assertive and seasoned. Before the agencies, courts, World Trade Organization, and NAFTA panels.

We don't just solve trade problems. We discover opportunities.

Representative experience

Represent Ukraine's largest metals and minerals group in major anti-dumping proceedings before the U.S. Department of Commerce and ITC.

Represent the BYD Group in connection with various U.S. anti-dumping and countervailing duty proceedings involving imports of solar cells and panels.

Serve as Ford's international trade counsel in several major anti-dumping and countervailing duty investigations.

Represent Wacker Chemie AG in three EU trade investigations
