

## Corporate & Finance

We provide end-to-end transactional solutions to our clients globally, across a wide range of capital strategies and funding structures.

Our lawyers provide tailored, practical, and innovative advice to help your organization achieve its objectives. We help clients that are in early conversations about company formation; are seeking to raise capital; and need guidance concerning real estate, governance, tax, or compensation and benefits matters. And we work with clients that are looking to execute their growth, restructuring, or exit strategy – or are a lender or an arranger of capital raising.

Each of our clients is unique, which is why we take the time to understand your business' strategic visions and goals as well as the challenges it will face. We apply our experience and judgement to fast-moving situations and changing circumstances to deliver insight and effective solutions to corporates, financial institutions, investors, and governments around the world.

With one of the largest fully integrated platforms of any law firm, our Corporate & Finance team consistently earns Top 10 rankings globally, as well as in our local markets.
