

Distressed Asset Management, Refinancing, and Restructuring

Change. Uncertainty. Volatility. You need people you trust for every eventuality.

We provide practical guidance at every stage of a project's lifespan. Our award-winning multidisciplinary team encompasses lawyers experienced in projects, business restructuring and insolvency, fund restructuring, refinancing, asset management, and dispute resolution.

We cover the full range of "distressed asset" scenarios, including day-to-day operational difficulties, contentious and noncontentious contract variations, distressed asset renegotiations and restructurings, rescue refinancings and equity injections, major project disputes, termination, security enforcement, and insolvency.

Representative experience

The lenders in connection with the restructuring and refinancing of a €1bn European motorway project.

Sport Singapore and the Ministry of Community Development, Youth & Sports on the Singapore National Stadium redevelopment, the world's largest sports infrastructure PPP project, and subsequent refinancing.

A major global power developer on construction disputes opposite Korean contractors relating to the expansion of a power plant in Ghana.
