

Christian Ramsey

President

uAvionix

Christian is president at uAvionix. uAvionix designs and manufactures the world's smallest transceivers and transponders for sUAS airspace electronic conspicuity under the brand name of "ping." Formerly, Christian was a Deputy Program Manager for Harris Corporation on the FAA's Surveillance and Broadcast Services (i.e., ADS-B) program and Program Manager for UAS R&D programs. He has spent his entire career in aviation technologies ranging from aircraft and flight simulation, aircraft surveillance systems, cloud-based services, and avionics. He is a private pilot and licensed UAS pilot under FAA Part 107.
